EDUCATION	2023 - Present	Faculty of Mathematics and Computer Science, University of Bucharest, Computer Science Specialization Entered as Olympic with perfect admission score (10)
	2019 - 2023	Constantin Carabella National College, Mathematics and Computer Science Specialization

SKILLS & ABILITIES

- **Technical Skills:**
Deep understanding of **Data Structures and Algorithms**
Solving **Competitive Programming** problems
Object Oriented Programming paradigm
Familiarity with **Game Development** pipeline
Machine Learning fundamentals
 - **Programming Languages:**
C++ - working with SFML, OpenGL, ImGui
Python - working with NumPy, Pandas, Matplotlib, Tkinter, OpenCV
PL/SQL - working with Oracle Database
Others: Java, JavaScript, Prolog, Haskell, x86 Assembly, C, C#
 - **Soft Skills:**
Critical and Analytical Thinking, Teaching
Time Management, Adaptability and Flexibility
-

PROJECTS

Square Enemy Arcade Game - developed in C++ with SFML, using object-oriented programming standards
OpenGL Functions Testing Framework - developed in C++ with OpenGL
Data Structures and Algorithms - mainly graphs algorithms in C++
Automata Theory - written in C++
Mirai no Tame ni - traveling website developed with HTML, CSS, JavaScript
RepReady - fitness web application developed in C# ASP.NET
UserSched - simulation for CPU scheduler in operating systems using C

HONORS & ACCOMPLISHMENTS

2021 - 1st Place at County Computer Science Olympiad
2023 - 3rd Place at County Computer Science Olympiad
2023 - 2nd Prize at MatelInfoUB Computer Science Contest

Other Participations:

- Olympiads: National Computer Science Olympiad
 - Contests: FMI no Stress, MatelInfoUB Mathematics
 - Hackathons: NitroNLP, Smarthack, Hermes
-

LANGUAGES English, Spanish, Romanian - Native Level

Japanese - Professional Level
French, German - Elementary Level

ABOUT ME

- Hi! I'm a second-year student pursuing a bachelor's in computer science, with an expected graduation date in July 2026. I am available for full-time work from July 2025.
- My main passions are Algorithms and Data Structures, Graphics Programming, Machine Learning, but I am always curious to explore different fields of computer science. Throughout college and university, I have participated in various competitive programming contests and developed a few indie games.
- My motivation is driven by a never-ending curiosity to acquire more knowledge and a strong desire to improve the field of computer science for the betterment of society.
